

Technical Specification

Wez conductive polypropylene containers and carry cases
Wez Racks
Wez PCB Holders

Material: Conductive Carbon Black Polypropylene

Surface Resistance: $< 10^5 \Omega$

Volume Resistance: $< 10^4 \Omega$

Electrostatic Shielding: Max 6000 Volt

Static Decay Time: < 0.1 second

Temperature capacity:

Containers and carry cases: 80°C

Racks slotted walls: 60°C

Reinforced racks/slotted walls: 80°C

PCB holders: 60°C

Please note depending on load, product distortion may occur at 50°C
