

## Technical Specification

### Low Density Foam. Part Nos: 64003 – 64014

- Soft, lightweight, flexible conductive foam suitable for transit packaging and cushioning
- Material: Polyether based polyurethane impregnated with a carbon loaded rigid latex
- Complies with IEC 61340-5-1
- Density >20kg/m<sup>3</sup>
- Colour: Black
- Surface Resistance:  $1 \times 10^4 \Omega$
- Volume Resistance:  $30 \Omega \text{ m}$
- Compression Set: 10%
- Non-corrosive, non-shedding and non-marking
- Supplied in sheets, rolls or cut pieces
