

Technical Specification

Conductive polypropylene containers/ Carry cases
Wez Racks
PCB Holders

Material: Conductive Carbon Black Polypropylene

Surface Resistance: $< 10^5\Omega$

Volume Resistance: $< 10^4\Omega$

Electrostatic Shielding: Max 6000 Volt

Static Decay Time: < 0.1 second

Temperature Capacity

Containers / carry cases: 80°C

Racks slotted walls: 60°C

Reinforced racks/slotted walls: 80°C

PCB holders: 60°C

Please note depending on load, product distortion may occur at 50°C
