

Static Safe Environments Ltd - Environmental Policy

At Static Safe Environments (SSE), we are committed to operating in an environmentally responsible and sustainable manner. We recognise our responsibility to minimise the impact of our operations on the environment and continually seek ways to improve our environmental performance.

Our Environmental Commitments:

Energy Efficiency

- We use only LED and low-energy lighting throughout our facilities to reduce energy consumption
- Our premises are fitted with double glazing to enhance insulation and reduce heating requirements
- We are proud to source our electricity exclusively from renewable energy suppliers, ensuring our operations are powered by clean, sustainable energy

Waste Reduction

- We maintain a strict recycling policy and actively work to reduce the amount of waste we produce
- All waste removed from site is traceable and recycled where possible
- Our operations are designed to generate no harmful substances or wastewater, protecting local ecosystems and water supplies

Sustainable Practices

- We review our environmental impact regularly and strive for continual improvement in line with best practices and emerging technologies
- ESD packaging supplied by SSE is exempt from Plastic Packaging Tax (PPT), containing at least 30% recycled plastic

Policy Review

This policy will be reviewed periodically and updated as necessary to reflect changes in legislation, technology, and company practices.
